“Beyond Answers- Building an Interview Persona Resonates” on 11.08.2025

An interactive and skill-enriching training session was organized for the MBA students at the **Seminar Hall**, featuring **Ms. Rashmie Boob**, a certified *Train the Trainer (TTT)* professional. The session aimed to prepare students for the competitive corporate world by not only enhancing their interview answering skills but also helping them build a professional persona that leaves a lasting impression.

The program commenced with a warm and motivating welcome address by **Ms. Bhagyalakshmi G**, who introduced the guest trainer and highlighted the significance of such practical learning opportunities in bridging the gap between academic knowledge and industry expectations. She encouraged students to actively participate and make the most of the session.

Throughout the session, Ms. Rashmie engaged the participants with a series of well-designed interactive activities. Around **70 students** took part in exercises such as **role-plays, one-to-one mock interviews**, and scenario-based practice sessions. These activities were crafted to simulate real-world interview and workplace situations, allowing students to experience the pressures and demands of professional interactions in a safe learning environment.

The trainer shared insightful tips on crafting impactful responses, using confident body language, maintaining positive energy, and effectively handling challenging or unexpected questions. She also emphasized the importance of listening skills, professional etiquette, and self-awareness in building an interview persona that resonates with recruiters. Personalized feedback was provided to each participant, enabling them to identify their strengths and areas for improvement.

The atmosphere remained highly engaging and energetic, with students showing keen interest and actively contributing to discussions. Many expressed that the activities helped boost their confidence and refine their approach to interviews.

The session concluded with a short open-floor discussion, where students asked questions related to career planning, interview strategies, and personality development. Ms. Rashmie addressed their queries with practical suggestions and motivational insights, leaving them inspired to continue working on their personal and professional growth.

Overall, the training proved to be a **valuable and impactful learning experience**, equipping students with the tools and mindset required to excel in interviews and build a strong professional presence.
